

High Voltage Distribution Unit

A modular solution to achieve flexibility

Features

- Modular solution
- Designed with standardised components
- Compatible with HUBER+SUHNER high-voltage portfolio (high voltage RADOX cable and connection system EV-C)
- Validation according to international Automotive Standards and Norms
- Robust design

Benefits

- Scalability of inputs & outputs
- Easy to adapt
- Commercial off-the-shelf product
- Suitable for harsh environments
- Proven internal connections, terminals and busbars for improved power density

USPs

- Improved lead-times
- Fast assembly and installation onto a vehicle
- Vehicle Time-to-Market reduction
- On and off road readiness
- High Power Distribution efficiency
